

# Advanced Digital Media

## Live coverage on demand

Advanced Digital Media is setting a new standard of high-quality, cost-effective television production solutions for clients of all sizes. We provide high-definition, on-demand video and audio streaming of public and corporate events in real time. Instantaneous television or web feed locations around the world gives clients unprecedented exposure.

## Reach audiences anywhere, anytime

By partnering with Advanced Digital Media, clients can livestream their press conferences, rallies, or any other events they want to share. Our high-definition recordings ensure television-ready content to distribute statewide and beyond, giving you and your message direct access to the audiences you serve.

## Illinois' #1 video streaming provider

As the most trusted video streaming service in the state of Illinois, Advanced Digital Media has provided unparalleled access to statehouse hearings and events for years. Our reputation as an unbiased, nonpartisan video service has earned us exclusive access to public officials' meetings and press conferences, as we deliver high-quality, unfiltered coverage in real time via our consumer-facing platform BlueRoomStream.com.

National media brands trust Blue Room Stream for the political and policy content in Illinois that they need.

Trust us to record and deliver your message today.

## Get started

To discuss your personalized production package, reaching thousands through high-quality, real-time video coverage of your event, please contact **Cole McNeely** at [cmcneely@franklinnews.org](mailto:cmcneely@franklinnews.org).
